

5th Grade Team

I hold a Bachelor's degree in Liberal Studies and a Master's in Business Administration from Strayer University. Although, my career did not start in the educational spectrum. I spent the last 8 years of my career as a multi-unit and district manager for various companies. Although, I took this route right out of college my desire has always been to eventually teach and help shape our children's future. Over the last 5 years I have had the honor to serve in capacities where it served children in underprivileged communities. I also was a long-term substitute in the Jersey City School district. I am looking forward to a great year with your students! My goal is to give all students a strong background in science and mathematics, as well as an enjoyment and appreciation of the world around us as we manipulate numbers in both areas.

Ms. Keys is a teacher of 7 years; she has taught at Washington D.C Public Charter School and a Private Christian School. She graduated from Coppin State University and received her Bachelors of Science degree. She is currently at Strayer University studying for her masters in Instructional Leadership. Ms. Keys loves her job and enjoying teaching and celebrating students accomplishments. Her goal is always to encourage the students to face challenges with the mindset that they will not give up.
